In the Abstract

The following is a marked-up version of the abstract with the language that is underlined ("___") being added and the language that contains strikethrough ("——") being deleted:

Methods <u>and systems</u> for cooling computer systems ~~are provided~~, in which the computer system has a processor and a fan. An exemplary method ~~comprises~~ <u>includes</u>: determining a temperature threshold for operating the fan at greater than low speed; determining a temperature of the computer system; and throttling the processor if the temperature <u>determined</u> corresponds to the temperature threshold for operating the fan at greater than low speed. ~~Systems also are provided.~~
